

THC vs CBD: What's the Difference?

Cannabidiol (CBD) and Tetrahydrocannabinol (THC) are both derived from the same plant species, *Cannabis sativa L.* Although they do share some similarities, including the same chemical formula, the two chemicals have several key differences due to their biological arrangements.

	CBD	THC
Psychotropic		✓
Found in greater concentrations in hemp	✓	
Found in greater concentrations in marijuana		✓
Federally legal to sell and consume products	✓*	
Legal to possess and consume products in Virginia	✓	✓**

* As hemp extract

** It is legal to possess up to 1oz of marijuana in Virginia.
